

Your Pioneering Vision. Our Local Talent.

A Blueprint for Success.

When building or renovating healthcare facilities, project owners can rely on 35 North’s technical expertise and understanding of how to navigate the extreme demand for excellence and a quick-to-market project delivery. With your success in mind, our nimble and comprehensive approach sets us apart as a full-service firm. We work with you to streamline the design and construction of quality medical spaces with minimal disruption – from stand-alone ambulatory care facilities to complex healthcare systems – allowing you to focus on providing unparalleled patient care.

We serve as a strategic partner in the areas of:

CONSULTING, PROGRAM, & PROJECT MANAGEMENT	COST MANAGEMENT & ESTIMATING	CONSTRUCTION SERVICES	COMMISSIONING & OPERATIONAL READINESS	DESIGN-BUILD INTEGRATED PROJECT DELIVERY
---	------------------------------------	--------------------------	---	--

Healthcare organizations can simplify the building process and protect capital investments by partnering with 35 North.

We provide customized solutions that prioritize quality, drive innovation, and reduce costs.

35 NORTH WILL HELP YOU:

Bring innovations to market quickly with fast-track delivery that never sacrifices quality.

Mitigate risk with centralized oversight while also streamlining the construction process.

Gain clarity and confidence by working side-by-side with our team of experts.

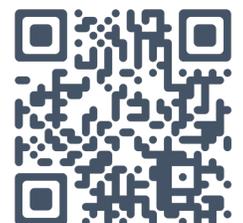

Gain access to the best local talent for your specific needs.

Avoid unnecessary change orders that delay schedules and increase costs.

Our core **services**

CONSULTING, PROGRAM, & PROJECT MANAGEMENT

Whether you have one project or multiple projects, our comprehensive program and project management services simplify your infrastructure life cycles. Working alongside owners with everything from master planning and site selection to design, construction, scheduling, and move management, we are devoted owner advocates.

COST MANAGEMENT & ESTIMATING

Providing comprehensive cost management, cost control, and market analysis services, our accurate and detailed costing services are the foundation of any successful project. 35 North provides comprehensive cost estimating (including complex MEP estimating) and cost planning models from a project's inception through closeout.

CONSTRUCTION SERVICES

Our construction management and general contracting teams have the experience and technical expertise to ensure a smooth project delivery – balancing quality, scope, timelines, budget, and regulatory considerations. With meticulous attention to detail and robust communication processes, we and our trusted trade partners adhere to rigorous standards, delivering superior spaces for businesses to thrive.

COMMISSIONING & OPERATIONAL READINESS

Our qualification services provide unparalleled value at delivery and startup of your assets. Our enhanced commissioning services are a systematic approach to the startup and turnover of a facility's building systems. Results ensure design requirements, specification documents, and stakeholder expectations are met and properly documented.

DESIGN-BUILD INTEGRATED PROJECT DELIVERY

When speed to market and minimizing risk are the highest priorities, this single contract, end-to-end integrated project delivery approach streamlines the building process for you with a seamless, turnkey solution – from site selection, building design, and construction through commissioning and qualification. It is a proven faster, easier, less expensive way to build.

Let Us Put Our Expertise to Work for You!
